

Website Build Checklist

Here is a list of suggested items to include on your website. Gathering these items ahead of time will help in designing a website specific to your needs.

- Logo
- Tagline (short billboard description)
- Contact info and business hours
- About information and profile picture
- List of services and descriptions
- Testimonials or reviews
- Pictures
- Social media links
- 3 main colors for your website
- List of websites similar to what you would like on your site

The [small business website template](#) can give you an idea of how to display your information. You choose your colors, pictures, information, and logo, and I'll build the site. Other options are available @ LifeandHeartMatters.com/website-development
